Hello everybody, thanks for reading. I'm replacing my old Windows 7 laptop for a new one running Windows 10. I'd like to move my Nero 9 to the new laptop. I've read comments of some users saying it won't work on Win10, but somebody else said it does. I don't even know the steps to take to move Nero to a different laptop, I'd appreciate any help. Thanks in advance.
