### Shyness What It Is To

Shyness is the tendency to feel awkward, worried or tense during social encounters, especially with unfamiliar people. Severely shy people may have physical symptoms like blushing, sweating, a pounding heart or upset stomach; negative feelings about themselves; worries about how others view them; and a tendency to withdraw from social interactions.

### Shyness - American Psychological Association

Shyness can truly hold people back--partly because those who are shy tend to avoid public situations and speaking up, and partly because they experience so much chronic anxiety. If that's you, take comfort in knowing you are far from alone--four out of 10 people consider themselves shy. But here's the good news: Shyness can be overcome.
